

# ADVANCING THE SCIENCE AT ANY GIVEN MOMENT: THE LATEST IN ALZHEIMER'S AND DEMENTIA RESEARCH

alzheimer's   
association®

Alzheimer's is a global health problem with more than 6 million people living with the disease in the US alone. Tremendous gains have been made in the understanding of the science and basic biology underlying Alzheimer's and other dementias. These advances are leading to great strides in strategies for prevention, detection, diagnostics, and therapeutic interventions. The Alzheimer's Association is a global leader in research, mobilizing the field to advance the vision of a world without Alzheimer's and all other dementia.
